

Implementation of the Automatic Export Notice Requirement for Certain Goods

Mexico City, June 4, 2025

On June 3rd, 2025, the Ministry of Economy issued on the Federal Official Gazette (“DOF”) the “Agreement Subjecting Certain Goods to the Requirement of an Automatic Export Notice”.

This new regulation establishes an Automatic Export Notice (AAE) applicable to 30 export tariff codes which apply to various goods such as:

Beer	Tequila
Silver	Engine parts
Turbojet engines	Freezers and refrigerators
Air pumps	Telephones
Catalytic converters	Computers
Monitors	Transformers
Optical fiber cables	Seat parts

The permit must be requested for each customs declaration (*pedimento*) by submitting a written request via email to aviso.exportacion@economia.gob.mx, supported by the required information and documents in an Excel format, which will be made available on the National Foreign Trade Information Service (“SNICE” by its acronym in Spanish) website.

Once the complete documentation has been submitted, the General Directorate for Trade Facilitation and Foreign Trade (“DGFCCE” by its acronym in Spanish) has ten business days to issue the corresponding AAE for each tariff item. The authority may request supporting documents for verification if deemed necessary.

It should be noted that, since no distinction is made in the customs regime, the AAE applies to both definitive and temporary exports. Furthermore, compliance with the AAE does not exempt exporters from fulfilling other applicable customs regulations or requirements at the time of customs clearance.
